

WinTest contest software

Wojewodztwo (province) suggestions

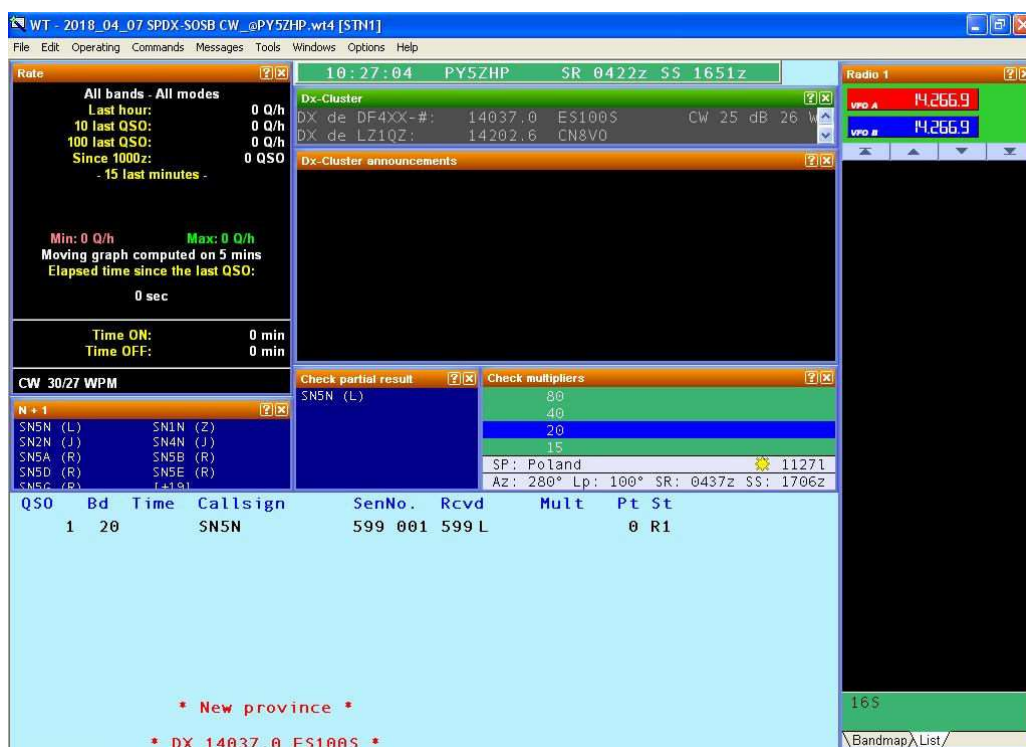

for the 2019 SPDX Contest

1. Unzip the downloaded file **WT_SPDXC_(out of SP)_2019_KP.zip** to any folder of your choice and copy the two files **default.scp** and **spdx.dtb** to the **WT- File/Explore/databases** directory.

2. Start **WT** and configure the program for a new SPDX Contest.

3. To test this, type in a Polish call sign that is in the **spdx.dtb** file (such as SP5KP), then press **SPACE**. The single-letter PROVINCE abbreviation will now appear in the **Rcvd** field.

The idea and creation of the databases: Chris SP5KP, SN5N
